Hi Richard,

I wanted to make sure you had the current drafts of these materials.

Thanks ng

**Subject:** GenX South Carolina info

Liz and Amy,

The attached one pagers are under final review with Nancy Beck. They have been vetted with ORD, OCSPP and OW.

There is a one pager highlighting the South Carolina finding with background on North Carolina GenX.

Also attached is a comprehensive timeline for GenX and EPA.

Finally, Lee Forsgren in OW suggested that we include a one pager background on setting health advisories, as the Administrator is likely to inquire about that as one of the factors for GenX is that there is currently no health advisory for this emerging contaminant.

Will let you know if there are any late breaking edits.

Please let me know if you need anything further.

Thanks ng
